

## Enriching Extra-Curricular Programs

### Athletic Programs

In addition to excellent curriculum, Oaklea Middle School students have access to numerous athletic clubs. Students have the opportunity to participate in football, cross country, volleyball, cheerleading, basketball, wrestling, and track and field. There are also times when our athletes compete at the state and national level. Oaklea's ability to access sports keeps students active while practicing the power of teamwork, strive for excellence, recognize potential in everyone, and develop leaders.

Oaklea has two groups of Robotics teams that practice and compete regularly throughout the year. This fun activity allows students to learn how to build and program robots, using Legos to compete at the state level.

Oregon Battle of the Books encourages students to read. They meet to read and discuss books, like a book club. Each school sends a team to a local competition to determine who moves on to State.

- Awesome Teachers
- 35 minute lunches
- Not having to share a locker
- New Playground Equipment
- School Dances
- 8<sup>th</sup> Grade Recognition
- Enrichments
- State of the Art Fitness Center

## High Academic Standards

### Curriculum

Oaklea Middle School has advanced curriculum. Each teacher stresses academic rigor in the core classes of math, social studies, language arts, and science. For more advanced students, sessions are available for math and language arts including TAG support. Besides the core curriculum electives include; P.E., Music, Choir, Laurel Connections, Student Aiding, and Computer Skills. Health is provided for each grade level. In addition, students have a rotation of enrichments that offer a chance to experience a variety of engaging mini classes. We also have integrated art through our ArtCore and Studio 2 Schools grants. And, we have a state of the art fitness center that students utilize weekly.

Our dedicated teachers are accessible before school, at lunch, and after school. We have ELOs (Extended Learning Opportunities) for students who need targeted interventions and supports in math and language arts. Oaklea teachers use Home Access, a program for students and parents to check grades, missing assignments, and attendance. If a student is having problems in any class, parents can email teachers for help and support. Our goal is to fully engage your student in their success at Oaklea Middle School.

### Technology

Oaklea Middle School has a variety of modern technology: Smart Boards and Prometheon Boards, projectors, Chromebooks, Document Cameras, and three computer labs. Technology is used daily in classrooms. Computer Skill classes help students create websites, Power Points, brochures, and Excel Spreadsheets.
