

Junction City School District

Bond Information: At-A-Glance

KEY ISSUES

Student Needs

Students will come first with investments in safety, security, equal access for all students, improved learning spaces, and more technology.

Sound Investments

Our bond will address the most significant maintenance drains on our funding with newer systems and spaces that will last 30-50 years and reduce our operating costs at the same time.

Long-Term Planning

We are not done. This first phase of projects set us up for district-wide investments to reduce operating costs, improve classrooms, and create safer schools as part of a 20-year master plan.

PROJECTS

District-Wide Safety & Security Investments at All Schools

- Vestibules at the front doors to control entry and channel visitors through the front offices.
- Universal card swipe system at primary exterior doors and auto lock-down systems.
- Replacement or upgraded phone and public address systems, cameras, and intrusion detection.

Junction City High School

- Construct a new 2-story classroom wing with 14 classrooms, media center, technology lab, and a new central mechanical plant to replace the old East Wing (built in 1936).

Oaklea Middle School Mechanical System Replacement & Upgrade

- Replace the primary mechanical equipment, controls, and room units to improve conditions in our classrooms and other work areas. *(A portion of the work will be funded through an energy savings grant.)*

Territorial Elementary Site Work

- Replace the asphalt paving at the front parking and access drive. Replacement includes storm water control.
- Add a covered play shelter with basketball hoops and game striping.

District-Wide ADA Work

- Includes upgrades to restrooms and exterior door hardware and transitions.

FINANCES

A Measure will be placed on the May 17, 2016 Ballot to grant authority to Junction City School District to sell \$14,635,000 in General Obligation Bonds.

If approved, the estimated tax to our Junction City community will be \$1.62 / thousand dollars of assessed home value. Again, this is the County assessed value and not your home's market or appraised value.

For a home with an assessed value of \$180,000, this equates to an annual tax of \$292, or \$24.30 monthly.
